# X12N 271 UNSOLICITED VERSION 4010 COMPANION GUIDE

### **OVERVIEW**

This Companion Guide to the ASC X12N 271 Unsolicited Health Care Eligibility/Benefit Roster Implementation Guide provides information for populating data elements that are defined as payer or trading partner specific. Transmissions based on this companion document, used in tandem with the ASC X12N Implementation Guide, are compliant with both X12 syntax and the ASC X12N Implementation Guide. This Companion Guide is intended to convey information that is within the framework of the ASC X12N Implementation Guide. The Companion Guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the Implementation Guides.

The data contained within this transaction will allow automation of the process of loading verified insurance coverages from the Third Party Liability (TPL) vendor to the Missouri Medicaid Management Information System (MMIS) TPL tables. All data must be electronically transmitted from the TPL Vendor to the MO HealthNet fiscal agent.

#### **Control Segments/Envelopes**

Loop	Segment	Data Element	Comments
NA	ISA	NA	The TPL vendor may use the data element
			separator and segment terminator of their choice,
			from the Basic Character Set or Extended
			Character Set, which are both defined in Appendix
			A of the ASC X12N Implementation Guide.
NA	ISA	ISA05	Use 'ZZ'
NA	ISA	ISA06	Use the TPL vendor User ID provided upon
			successful completion of the Trading Partner
			Agreement.
			TPL vendor User ID: HMS
NA	ISA	ISA07	Use '30'
NA	ISA	ISA08	Use '431754897'
NA	ISA	ISA13	This Unique Number must be identical to the
			Interchange Control Number in IEA02. Right
			justify, left pad with zeros to nine (9) bytes. Each
			submitter must start with a value of their choice
			and increment by at least one (1) each time a file is
			sent.
NA	ISA	ISA15	During the testing phase, billers must use 'T'.
			Once approved for production, use 'P'.

#### ISA Segment

NA	ISA	ISA16	The TPL vendor may use the component element separator of their choice, from the Basic Character Set or Extended Character Set, which are both defined in Appendix A of the ASC X12N Implementation Guide.
----	-----	-------	---

## **GS Segment**

Loop	Segment	Data Element	Comments
NA	GS	GS02	Use the TPL vendor User ID provided upon
			successful completion of the Trading Partner
			Agreement.
			TPL vendor User ID: HMS
NA	GS	GS03	Use '431754897'
NA	GS	GS06	This Unique Number must be identical to the Group
			Control Number in GE02. Each submitter should start
			with a value of their choice and increment by at least
			one (1) each time a file is sent.

# Transaction Specific Segments

Loop	Segment	Data Element	Comments
2000A	TRN	TRN02	Vendor Post ID, this value is returned to the vendor
			on the verified covered reject file.
2100A	NM1	NM103	Vendor Name, this value is returned to the vendor
			on the verified covered reject file.
2100A	NM1	NM108	Use 'FI'
2100A	NM1	NM109	Vendor Federal Taxpayer's Identification Number,
			this value is returned to the vendor on the verified
			covered reject file.
2000B	NA	NA	This loop is situational, but must always be sent.
2100B	NM1	NM103	Use 'MO HealthNet'
2100B	NM1	NM108	Use 'FI'
2100B	NM1	NM109	Use '431754897'
2100B	INS	INS03	Use '001' when terminating a previously sent
			policy.
			Use '002' when voiding a previously sent policy.
			Use '021' for new policies.
2110B	REF	REF01	MO HealthNet only processes '1L'.
2110B	REF	REF02	Policy Number
2000C	HL	NA	This loop is situational, but should never be sent.
2000D	NA	NA	This loop is situational, but must always be sent.
2100D	NM1	NM108	MO HealthNet only processes '34'.
2100D	NM1	NM109	Policy holder SSN
